

EFI Colorproof eXpress

Proofing to Go – Smart, Easy and Quick!

Graphic Arts Solutions

EFI Colorproof eXpress

– Smart, Easy, Quick and Accurate

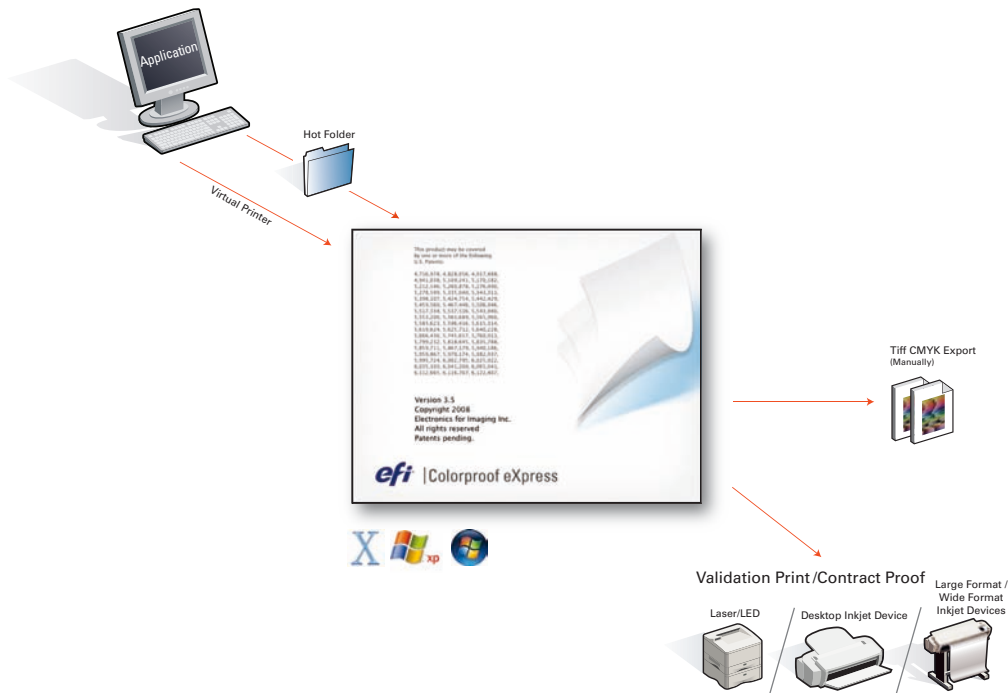

Whether you are a print buyer, a creative designer, working in a prepress house or in a small agency, creating proofs that predict your final print job is essential in today's demanding print environment. Also delivering high-quality with a limited budget can be a challenge when you need to keep an eye on the bottom line.

EFI Colorproof™ eXpress is a new entry-level proofing solution that provides high quality proofing results. The solution is perfect for small operations with limited budgets because it enables even your most inexperienced user to provide validation prints and contract proofing out-of-the-box quickly, easily and effectively.

Simplify Your Process

Proofing has long been seen as the domain of experts with extensive training and years of experience. Colorproof eXpress provides a simple solution that even novice users can operate. Set up wizards help you license, register and set up, giving you an efficient software RIP to do validation printing and contract proofing on inkjet, laser or LED printers.

Predefined print modes for proofing, photo and black/white printing as well as the one-click spot colour handling underline the focus on ease-of-use. EFI Colorproof eXpress is Proofing to Go!

Benefit from

Colorproof eXpress' many advantages:

No Downtime for Installation or Training

For busy operations, Colorproof eXpress minimizes downtime for installation, setup or training. Unlike other RIP solutions which have extensive installation and setup procedures, Colorproof eXpress has set up wizards to help you easily license, register and set up on your Macintosh® or Windows® operating system.

Easy for Everybody to Use

Everybody in your organization can use Colorproof eXpress easily and meet your customers' high standards quickly. Colorproof eXpress enables definitions of colour and printing preset according to your requirements and even has pre-defined print modes for proofing, photo and black and white printing. It also comes with intuitive one-click spot colour handling.

Intuitive Graphic User Interface

There's no ramp-up time with Colorproof eXpress. Its interface stands out with user-friendly design. The solution features a menu display of the most commonly used tasks for every day use.

Focus on Standards

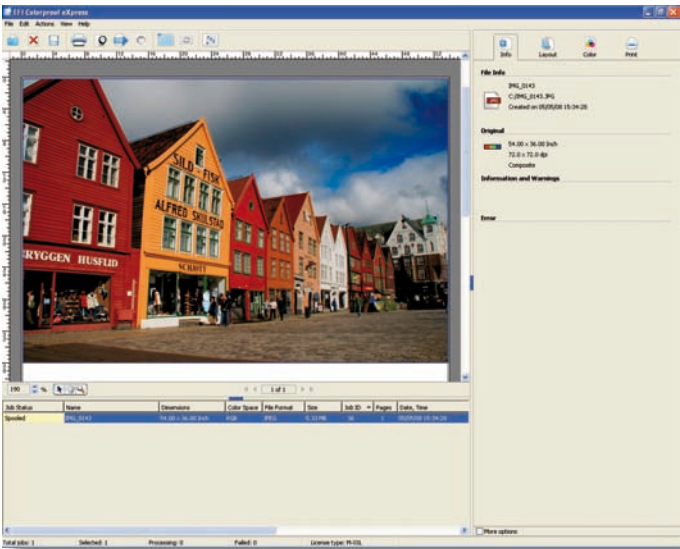

Your customers can rest assured that Colorproof eXpress supports open market standards for easy integration into open standards based workflows. The ICC compliant software RIP lets you provide validation printing and contract proofing on your inkjet, laser and LED printers quickly and efficiently.

Remote Job Processing and Printing

With tight deadlines and quick turn around times, an effective communication between proof provider and customer is essential. The remote job processing and printing capability of EFI Colorproof eXpress enables onsite proofing at the print buyer location and significantly speeds up the proofing approval cycle.

A Money Saving Solution

Like many of EFI's integrated solutions, entry-level Colorproof eXpress provides a higher return on investment. As your business grows, simply cross grade to EFI's high-end solution, EFI® Colorproof XF, which shares a similar user interface.

Product Configurations*

- EFI Colorproof eXpress M: Supports all printers up to 18" or A2.
- EFI Colorproof eXpress XL: Supports all 24" printers.
- EFI Colorproof eXpress XXL: Supports all printers bigger than 24".

* Support of one printer per product configuration.

Hardware Specs

Recommended system requirements

- Operating System: Windows, XP Home Edition, XP Professional, Win 2003 Server SP1 R2 standard, Windows Vista.
Mac OS 10.4 and 10.5.
- Hardware: Windows: 2 GHz Pentium IV PC, 1024 MB RAM, 10/100 Mbit Network, One available USB port.
Mac: Intel Mac native or Power PC G4, G5, 1024 MB RAM, 10/100 Mbit Network, One available USB ports.
- Supported Languages: English, German, Spanish, French, Italian, Japanese, Korean, and Chinese (simplified and traditional).

Print to Win

EFI (www.efi.com) is the world leader in colour digital print servers, and controllers; superwide format printers and inks, industrial inkjet printing systems and print management, Web-to-print and proofing solutions. EFI is dedicated to giving customers a competitive edge with award-winning, scalable solutions from creation to print that maximise productivity and increase profits. EFI maintains 23 offices worldwide.

EFI Colorproof eXpress

Choose a Fast, Simple and Accurate Solution

In the proofing market, providing colour accurate, reliable printed documents quickly is the key to success. As a creative designer, agency, prepress house or if you work for a print buyer, you know that complicated proofing solutions or badly printed colour documents can impact your bottom line and negatively impact customer relationships. The new EFI Colorproof™ eXpress prevents these headaches by providing an entry-level “Proofing to Go” solution that provides high quality results. It’s perfect for small operations with limited budgets because Colorproof eXpress enables even your most inexperienced employees to provide validation prints and contract proofing out-of-the-box quickly, easily and effectively.

Benefits

Easy to Set Up

Unlike other RIP solutions which have extensive installation and setup procedures, Colorproof eXpress has set up wizards to help you easily license, register and set up on your Macintosh® or Windows® operating system.

Easy to Use

EFI Colorproof eXpress enables definitions of colour and printing presets according to your requirements and even has pre-defined print modes for proofing, photo and black and white printing. It also comes with intuitive one-click spot colour handling, enabling you to effectively meet your customers’ high standards quickly.

Intuitive Graphic User Interface

Colorproof eXpress’ interface stands out with a user-friendly design. The solution features a menu display of the most commonly used tasks for every day use.

Focus on Standards

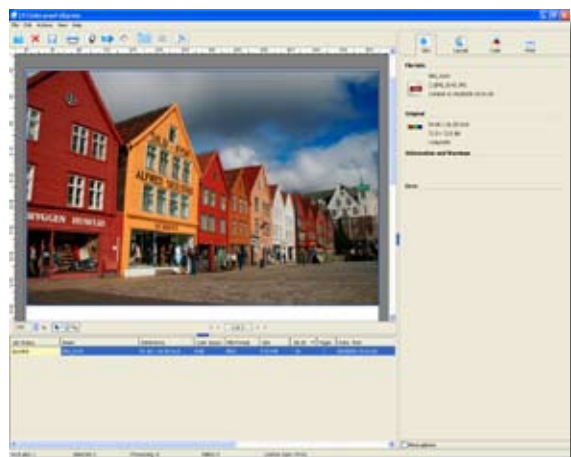

EFI Colorproof eXpress supports open market standards for easy integration into open standards based workflows. Its software RIP has an ICC compliant design that lets you provide validation printing and contract proofing easily on your inkjet, laser and LED printers.

Remote Job Processing and Printing

The Colorproof eXpress RIP provides remote job processing and printing capability for those who want to receive and print remote jobs quickly and accurately onsite, ideal for print buyers.

Scalable for a Greater Return on Investment

Like many of EFI’s integrated solutions, entry-level Colorproof eXpress provides a higher return on investment. As your business grows, simply cross grade to EFI’s high-end solution, EFI® Colorproof XF, which shares a similar user interface.

EFI Colorproof eXpress

EFI's portfolio of integrated solutions increases productivity and improves your bottom line. Find out more at www.efi.com.

EFI Colorproof eXpress v3.5

Product Configurations*

EFI Colorproof eXpress M:	Supports all printers up to 18" or A2
EFI Colorproof eXpress XL:	Supports all 24" printers
EFI Colorproof eXpress XXL:	Supports all printers bigger than 24"

**Support of one printer per product configuration.*

Ease of use

Activation wizard for licensing and registering.	✓
Setup wizard for configuration of colour and printing settings.	✓
Save/load of application environment.	✓
Pre-defined print modes for Proofing, Photo and b/w print "Every-day work mode."	✓
Intuitive one click spot colour handling.	✓
Intuitive, easy to use graphic user interface based on XF concept.	✓
Online updater with reminder.	✓
Linearization compatible to XF products (*.epl).	✓
Backup and restore (as well after crossgrade to XF products!).	✓
Change of language in application.	✓
Supported languages: English, Spanish, French, Italian, Japanese, Korean, Chinese (simplified and traditional).	✓

Integrated Technologies and Standards

ICC color management: including multicolor profile support (up to seven channels) and device link profile support.	✓
Cross-platform (Mac OS X / Windows incl. Vista.)	✓
Adobe CPSI 3017.	✓
Spot color libraries DIC, HKS, Pantone and Toyo.	✓
Ugra/Fogra media wedges v2.2 and v3.0.	✓
Focus on standards ICC, PDF/X, ISO 12647-7, SWOP and GRACoL.	✓
Supported file formats PS, EPS, DCS1, DCS2, PDF, TIFF, JPEG, JPEG2000, PSD and RPE.	✓
Processing and printing of remote jobs.	✓
Built in profile connector and ink assistant.	✓
Unicode support.	✓

Productivity

Manual and automatic nesting.	✓
Contact sheet (for photo applications.)	✓
Speed setting (determines RIP resolution)	✓
Simultaneous job processing on multi processor PCs for non PDF and PS formats.	✓
Rip and Print on-the-fly.	✓

Output

Support of inkjet, laser and LED printers.	✓
Tiff CMYK Export according to ISO printing conditions.	✓
Single print queue supporting one printer.	✓
Printing from Mac/Windows into application via Hotfolder, Virtual printer, AppleTalk printer.	✓
Printing via network (TCP/IP, Bonjour), USB or system printer (Windows only.)	✓
Supported printers (please contact your channel partner for more details): Agfa, Canon, Encad, EPSON, HP, Kodak, Mutoh, Mimaki, OKI, Roland, Seiko, Xerox	✓
